							TOTAL	

**Must read before proceeding:**

Only brazers who have been qualified under the requirements of ASSE 6010 and certified with the Ohio Department of Commerce shall be permitted to braze joints in medical gas and vacuum pipeline systems (ASSE Series 6000 / 10-4.9.2). Any medical gas and vacuum pipeline systems not meeting these requirements may be required to be removed. I agree to comply with the Chapter 100 Plumbing Regulations of Richland Public Health and the Ohio Plumbing Code, and acknowledge that my registration as a plumber may be suspended or revoked for violation of these rules and regulations.
